QUICK FACTS

BRIEF PROGRAM DESCRIPTION / GOALS:
The Aeronautics Maintenance Technology program is designed to prepare individuals for Federal Aviation Administration certification as aircraft Airframe and Powerplant mechanics. Students in this program obtain knowledge and practical applications in such areas as hydraulics, sheet metal, electrical installation and troubleshooting, welding, the use of hand power tools, engine theory, troubleshooting and repair.

DEGREES THAT CAN BE EARNED:
Associate in Science (AS)
Certificate of Achievement (CA)

WHAT IS UNIQUE ABOUT THE PROGRAM:

• The Aeronautics Maintenance Department is an approved aviation maintenance technician training facility operating under Federal Aviation Administration Air Agency Certificate No. DI9T087R with Airframe, Powerplant and combined Airframe and Powerplant ratings.
• It is the only such school in the Pacific Basin.

ITEMIZED ESTIMATE OF EDUCATIONAL COSTS:

• Tuition based on total credits taken.
• Books/tools/supplies approximately $2,500 for entire program.

PROGRAM PREREQUISITES:
Check the College catalog or the program webpage for the most current program prerequisites.
