**QUICK FACTS**

**BRIEF PROGRAM DESCRIPTION/GOALS:**
The Automotive Technology (AMT) program is a comprehensive five-semester program master certified by the National Automotive Technicians Education Foundation (NATEF) that prepares students for employment as entry-level automotive technicians.

**DEGREES THAT CAN BE EARNED:**
Associate in Applied Science (AAS)

**WHAT IS UNIQUE ABOUT THE PROGRAM:**
- The Automotive Technology program is a competency-based program designed following the standards specified and certified by NATEF.
- Students will receive training in the following areas: automatic transmission/transaxle, brakes, electrical systems, engine performance, engine repair, heating and air conditioning, manual drive train and axles, and suspension and steering. The program has a Cooperative Education requirement.
- The Automotive Technology program is the only program in the nation that dedicates an entire semester solely to the complex area of Engine Performance.
- All faculty and staff hold Master ASE Certifications and the new G1 Certification in accordance with the latest NATEF requirements for Master Certified Programs.
- The facility is equipped with 33 hoists and 5 wheel alignment hoists.
- Two (2) classrooms have the capability of having a running automobile in an air-conditioned classroom for enhanced instruction.

**ITEMIZED ESTIMATE OF EDUCATIONAL COSTS:**
- Tuition based on total credits taken.
- Tools/supplies for 5 semester program approximately $3,500.

**PROGRAM PREREQUISITES:**
