Rank	Program Description
	Automotive Technology Students will gain an understanding of the automotive industry and careers available, knowledge of nomenclature of basic tools and basic usage, shop safety, on-line technical reference usage, as well as an overview of the eight areas of automotive technology courses offered at HonCC.
	Carpentry Technology Students will learn about the carpentry industry, practice quality workmanship, use appropriate materials, tools, equipment and procedures to carry out work as a carpentry professional. This session will culminate in producing a final project.
	Computing, Security, & Networking Technology Students will be provided with an introduction to core networking/IT concepts and build an actual working network with routers, switches, firewalls, servers and workstations. Students will run cyberattacks against actual systems with a focus on the methods used to detect a cyberattack in progress and various methods we can deploy to protect ourselves against cyberattacks.
	Cosmetology Students will learn about the Cosmetology program through hands-on activities and experiential instruction. We will discuss different aspects of the industry and options for career paths. At the end of the two weeks, students will understand how the program works and what being in the beauty industry entails.
	Early Childhood Education This session will highlight how early educators provide intentional play-based experiences for young children, essentially laying the groundwork for their future development and well-being. We will also introduce the various early childhood education programs and career possibilities in our community.

	<p>Fashion Technology Students who participate in this program will learn how to operate basic home sewing machines, create and complete a pair of “Jams” shorts to fit oneself. Through this process, they will have the ability to be creative and have a better understanding of the garment industry.</p>
	<p>Fire & Environmental Emergency Response Training will take place at HCC’s AERO campus on Lagoon Drive. Students will learn many of the skills required for a Firefighter-1 level. The hands-on training includes CPR/AED, communicating with portable radios, donning firefighting protective clothing and self-contained breathing apparatus, tying ropes and knots to haul tools and equipment, climbing ladders, assisting victims, and much more.</p>
	<p>Music & Entertainment Learning Experience A comprehensive workshop where students learn, collaborate and create their own original works. Key focus areas include: songwriting, exploring creative writing and basic music theory in popular forms of song, specialized techniques to create their own original works, the fundamentals of acoustics and recording in the Mike Curb MELE Studios and using Apple’s LogicPro software, and more.</p>
	<p>Sheet Metal and Plastic Technology This program is perfect for the student who is interested in learning about the field of sheet metal. This includes: metal fabrication, fabricating air conditioning ducts, architectural metal work and pattern development. This session will culminate in creating a final project.</p>
	<p>Welding Technology Students will learn theory and practical skills in the various phases of welding and cutting. This includes arc welding, plasma and air carbon arc cutting, oxyacetylene welding, TIG welding, MIG welding, and much more. This session will culminate in creating a final project.</p>

The application deadline is **Friday, May 26, 2023.**
