HONOLULU COMMUNITY COLLEGE (HON CC)/ UNIVERSITY OF HAWAI'I AT HILO (UH HILO) THE DANIEL K. INOUYE COLLEGE OF PHARMACY (DKICP) ADMISSION GUIDE FOR THE DOCTOR OF PHARMACY PROGRAM (PHARMD)

UH Hilo DKICP Admission Requirements for PharmD Program:

The professional Doctor of Pharmacy program is accredited by the Accreditation Council for Pharmacy Education (ACPE) and is required for licensure as a pharmacist. DKICP accepts up to 50 students each Fall. Meeting the minimum qualification requirements does not guarantee admission.

- All pre-requisite courses must be completed with a grade of C or better (C- grades are not accepted).
- Candidates may be in the process of completing prerequisite coursework at the time of application prior to the start of the PharmD program. If accepted, the acceptance is based on the successful completion of any pending courses.
- DKICP utilizes the GPAs calculated by PharmCAS. There are no minimum GPA requirements for admission. However, the average overall cumulative GPA for accepted students is 3.1.
- Submit an application through PharmCAS, which includes:
  - A personal statement
  - Two professional letters of recommendation (electronic letters of reference are required)
  - Applicable fee(s)
  - Official transcripts from all regionally-accredited colleges and/or universities attended
- The supplemental application is integrated into the "Program Materials" section of PharmCAS. This section should be completed at the same time or shortly after your PharmCAS application is submitted. A non-refundable $50 supplemental application fee is also required.
- DKICP operates on a competitive, rolling admissions process, thus early submission is strongly recommended.
- Applications and interview scores are reviewed by the Admissions Committee for final admission decisions.
