HAWAIIAN STUDIES (HWST)

LIAISON:  Mark Alapaki Luke  (844-2372, markluke@hawaii.edu)
OFFICE:  Building 7-517
FACULTY:  Tiani Akeo-Basques, Paul Kalani Flores, Jacob Hau'oli Lorenzo-Elarco, Mark Alapaki Luke, Ka’iulani Murphy

PROGRAM MISSION:  Provide an opportunity for students to gain an understanding and knowledge of the host culture of Hawai‘i, the Native Hawaiian language, culture and values.

PROGRAM DESCRIPTION:  The Hawaiian Studies Associate in Arts will provide pathways, support, and recognition for students who are pursuing an AA at Honolulu Community College which is a two-year liberal arts degree that provides students with, 1) skills and perspectives fundamental to undertaking higher education; and, 2) a broad exposure to different domains of academic knowledge. This program will also ensure that students will enter a baccalaureate Hawaiian Studies program with the skills and knowledge required to promote success in the Hawaiian Studies major. The AA in Hawaiian Studies has comparable foundation, and diversification requirements to the Honolulu CC AA in Liberal Arts. It includes an expanded set of graduation requirements that, 1) provides students with a foundational introduction to the study of Hawaiian knowledge, cultural understanding, and values through exposure to origins, language, environment, craft, history, politics and culture; and, 2) supports the development and training of students toward the use of Hawaiian based knowledge and methods in the workforce and other areas of inquiry such as science, humanities, the arts, social sciences, and other professional endeavors.

PROGRAM STUDENT LEARNING OUTCOMES (SLO):  Upon successful completion of the AA in Hawaiian Studies, students will be able to:

- Demonstrate competency in spoken and written Hawaiian language and show a familiarity with the oral traditions and written literature of Hawai‘i.
- Identify elements of the geology and geography of Hawai‘i and the role of Hawaiian culture in understanding the ‘āina (land/earth).
- Recognize, analyze, evaluate and work to solve contemporary economic, political and social problems in Hawai‘i and their impact on Native Hawaiians.
- Utilize the Hawaiian understanding of ethics, philosophy, religion, and the worldview in solving contemporary issues.
